Welcome to the 2019 biannual statewide conference TECH TO EMPOWER! This groundbreaking conference takes a hard look at technology, media, and film, and the unique impact each has on domestic violence. Learn from experts in their field, network with other domestic violence advocates, and most importantly participate in conversations about improving the lives of survivors.

7:00 AM – 8:00 AM | SUNRISE YOGA • CLOVER CLUB TERRACE
Krista Del Gallo, Texas Council on Family Violence
Start your day with Namaste! Begin your morning with Sunrise Yoga. Leading this all levels practice is seasoned yoga instructor and TCFV staff member, Krista Del Gallo. Krista will lead basic yogic breathing, stretching, and strengthening techniques to jump start your Tech To Empower journey. The class will offer encouragement and tools to incorporate in your daily self-care routine. Remember, you’re as important as those that you serve. Dress comfortably for movement. Yoga is traditionally practiced barefoot, but socks are acceptable. Mats, towels, and water will be provided. All yogis will also receive a complimentary, keepsake water bottle. Class is suitable for all levels.

MISUNDERSTOOD IN THE PUBLIC SPHERE
Lorena Bobbitt created national headlines that generated debate and dialogue about domestic violence and feminism. The national dialogue around her case was prominent just before passage of the Violence Against Women Act. Did the media get it right? Was the portrayal of this event accurate? Journalist Melissa Jeltsen of the Huffington Post documents the story of Lorena through the docuseries on Amazon Prime. This docuseries captures a moment in history that has spurred emotions and inappropriate humor. Listen in as Lorena and Melissa discuss the docuseries and elements of the case.

NEW INTEGRATED VICTIM SERVICES SYSTEM (IVSS)
IVSS stands for the Integrated Victim Services System operated by the Texas Department of Criminal Justice (TDCJ) Victim Services Division. IVSS is a free, automated service that provides crime victims and the TDCJ Victim Services Division with vital information and notification 24 hours a day, 365 days a year. This system allows you to obtain information about offenders in TDCJ custody, or on parole/mandatory supervision, and to register for notification of changes in offender status, such as offender release. Learn how survivors, advocates, and criminal justice professionals can access online portals to register for notifications, submit activity reports, update the directory listing, and request publications and trainings.
WORKING WITH PERSONAL STORIES TO ADDRESS FAMILY VIOLENCE
StoryCenter’s model for supporting small group sharing involves producing compelling personal stories and then uses them as tools for community engagement, prevention education, and advocacy. Amy emphasizes the ethics of using real stories, and then wraps up with an overview of community-based methods for facilitating and producing stories as media pieces. Come learn storytelling methods, be guided through experiential activities, and further build skills that strengthens one's storytelling abilities.

REACHING TEENS THROUGH TECHNOLOGY
Outreach to teens is vital to all agencies, especially when it comes to prevention. Most teens are tech-savvy and utilize technology as a means of communication every day. With the goal of reaching teens on their turf, agencies need to address all types of prevention (bullying, suicide, teen dating violence) on all social media platforms. Come learn about the importance of empowering young people through providing a safe place for them to learn and communicate and about how you can use technology to achieve your mission.

LAW ENFORCEMENT ROUNDTABLE
The roundtable brings together a small group of officers from across Texas to discuss community strategies for monitoring offenders and to provide insight on new family violence laws that intersect with law enforcement.

CALL HER GANDA: A CASE STUDY
When Jennifer Laude, a Filipina transwoman, was brutally murdered by a U.S. Marine, three women—an activist attorney, a transgender journalist, and Jennifer's mother—invested their time and effort in the case and galvanized a political uprising by pursuing justice and taking on hardened US imperialism. CALL HER GANDA is a documentary which explores Jennifer's life, the circumstances surrounding her death, and the pursuit of justice. Listen and engage with the director on how grassroots activism can combat violence against the trans community.

SAFE SHELTER COLLABORATIVE: REPORTS FROM THE FIELD
The Safe Shelter Collaborative addresses a critical need cited by shelter and shelter referral agencies: quick identification of immediately available and survivor-appropriate shelter. Managed by Caravan Studios (a division of TechSoup) and designed in close coordination with shelter agencies that support survivors of domestic violence, human trafficking, and sexual assault, the Safe Shelter Collaborative is a free, technology-based program that helps identify immediately available, survivor-appropriate shelter space, and provides a fundraising option to support the costs of emergency hotel placements. Utilize this collaborative to market to donors, develop and manage relationships with hotels, and provide shelter services to survivors while they are in hotels.

CELEBRATING GREAT THRILLER FICTION WITHOUT VIOLENCE AGAINST WOMEN
Joining us virtually from Europe, Bridget Lawless, acclaimed international screenwriter and author, explains why she abstained from voting for the 2017 British Academy of Film and Television Art (BAFTA) awards and in 2018, founded the Staunch Book Prize—an international award for a thriller novel in which no woman is beaten, stalked, sexually exploited, raped or murdered. In our field many of us tend to avoid violence in literature, film and television for selfcare so it can be refreshing to discover enjoyable thriller fiction that does not rely on graphic violence against women. Professionally, we see the impact the normalization of violence has on women's lives and on our culture. Celebrate an ally who is championing engaging fiction that offers an alternative to violence against women.

Debra Zimmerman, Women Make Movies

WOMEN BEHIND THE CAMERA: NOT JUST A PRETTY PICTURE

Debra Zimmerman has been the Executive Director of Women Make Movies, a non-profit that supports women directors and producers, since 1983. In that time, she has witnessed a huge increase in the number of independent women filmmakers working around the world, but she also sees the challenges women continue to face. The percentage of women directing films in Hollywood is less than that of women in Congress, and female characters had only 33% of speaking parts in the top 100 films from last year. The statistics for women of color are far worse. Why is this still the case in 2019? Debra will show clips from Women Make Movies’ film and talk about the work they have been doing to champion independent women filmmakers and their stories. Come and learn the history of women in Hollywood, the status of women directors today after #MeToo, and the importance of diverse images by women filmmakers.

ENGAGING FAITH COMMUNITIES IN SURVIVOR SUPPORT

We want to hear from you! Grab your lunch from downstairs and join us for a listening session focusing on engaging faith communities in our advocacy, intervention, and prevention work. If you have little engagement with your local faith communities, or you interact all the time with your local faith communities, we want to hear your program’s strengths, weakness, opportunities, and ideas. TCFV is forming a faith community network to highlight resources, provide training, and support programs and faith communities in supporting survivors of faith. Your voices will be foundational in crafting the direction of our work. This session is ideal for survivor support programs and BIPPs that have little engagement to extensive interaction with their local faith communities.

RESPONDING TO MONICA’S LAW: HOW ADVOCATES AND ATTORNEYS CAN SAFETY PLAN AROUND A PUBLIC REGISTRY
On September 1st, Texas launched a new, public-facing protective order registry based on “Monica’s Law.” Survivors can now opt-in to an online database when they request a protective order. The registry will allow the public to see information about the abuser. Learn more about how this will affect survivors’ safety and privacy concerns, and what advocates and attorneys should know when safety-planning with clients. Find the necessary tools and information that can assist in responding to clients’ needs and concerns surrounding the new, public-facing registry.

NONCONSENSUAL INTIMATE IMAGES: WORKING WITH SURVIVORS AMID AN EVOLVING LANDSCAPE
Nonconsensual Intimate Imagery (NCII), also known as ‘nonconsensual pornography’ or ‘revenge porn,’ has existed for decades but only recently has become a nationally-recognized problem. Due to advances in technology (the Internet, smartphones, social media, etc.), NCII has reached epidemic proportions, with 1 in 25 people in the U.S. now identifying as a victim. Adam discusses the evolution of NCII, solutions to address NCII (including civil and criminal legal remedies), the continued shaming and blaming of survivors, and emerging technologies that have created new threats.

END TECH ABUSE ACROSS GENERATIONS: PREVENTION & RESPONSE TOOLS FOR ADULTS SERVING YOUTH
Melissa and Mae focus on increasing awareness of technology-facilitated sexual assault, domestic violence, dating violence, and stalking cases. Come learn how to utilize Break the Cycle and CALCASA’s eTAG website (endtechabuse.org), tools, resources, and strategies to serve youth survivors of tech-facilitated abuse.

YOUTH ENGAGEMENT THROUGH FILM
The “Can't Beat Love San Antonio” Youth Film Contest offers ideas on how to engage youth in social justice activism and understand youth ideas about issues and advocacy. The contest, which has been engaging high school film students since 2010, challenges students to create short films and public service announcements targeted at social justice issues. These issues range from teen dating violence to bullying to substance abuse. Watch some of their films, hear their stories, and reflect on how you can engage the youth in your communities in these conversations for social change.
The Intersection of Co-Parenting and Domestic Violence

As our dependency and use of technology increases, we rely on many devices to complete daily activities. Unfortunately, as technology becomes more integral to our lives, offenders identify ways to exploit this technology to facilitate crimes toward survivors. Explore how the Family Wizard co-parenting tool promotes healthy and safe communication that can be utilized while in a secure and confidential domestic violence shelter. Find out how this online and mobile communication tool allows for a shared parenting calendar, secure messaging, expense tracking and is utilized and recognized worldwide as the leader in co-parenting communication.

Deepfakes & Digital Impersonation: A New Threat to Survivors

When a new advancement in technology is introduced, those working with survivors of crime must rapidly prepare for how it may be misused to inflict harm on the population they serve. Artificial intelligence is no exception, driving harmful new advances in the field of digital impersonation, such as ‘Deepfake’ videos. These videos are used to falsely make a victim appear in a pornographic video they were, in fact, not in. This technology makes anyone a potential victim of nonconsensual, intimate imagery and is just one of several ways in which people can be harmed. Join Adam as he explores video, audio, and photo technologies that can hijack a survivor’s likeness or voice with startling accuracy, and discuss how to identify, prevent, and respond to these threats.

Promoting the Financial Well-Being of Survivors: Using Web-Based Technology to Address Coerced Debt

Coerced debt is debt incurred by an abuser in the name of a victim as part of economic abuse. Addressing coerced debt is an important part of the process to achieve financial well-being for survivors of domestic violence. There are two new, important initiatives in place: the Texas Coalition on Coerced Debt, and a new Texas law which clearly identifies coerced debt as a form of identity theft. Find out how Texas Appleseed spearheaded the development of an online toolkit to assist victims and advocates navigate coerced debt. Explore how you can use the online and paper toolkit to learn about coerced debt and legal remedies for survivors.
