

Honoring Texas Victims

*Texas women and men killed
by their intimate partners in 2022*

VICTIM NARRATIVES

Texas Council on Family Violence documents and examines intimate partner homicides annually to promote systemic and cultural change. These stories inform our work, identify opportunities to close system gaps, and promote strategies to change outcomes for families experiencing domestic violence.

We pause to honor the lives of Texas women, men, and children killed by someone who claimed to love them. These losses devastate families and communities across Texas. We reflect on the stories of these individuals to understand the experiences of victims, identify gaps in services, and offer practical solutions for change.

In 2022, 216 Texans were victims of intimate partner or stalking homicide. This number includes 179 women and 37 men, including six LGBTQ+ victims. Intimate partner homicide victims ranged in age 13 to 89. Homicide perpetrators also killed 28 family members, friends, or bystanders and injured an additional 14 victims, including five law enforcement officers and nine family members, neighbors, and friends. The victims included 10 children who were killed and two children who were injured. Two hundred seventeen adult and minor children lost a parent to domestic violence.

Each confirmed fatality represents a woman or man killed by an intimate partner or stalking perpetrator between January 1, 2022, and December 31, 2022. These narratives include the date of death, the ages of the victim and perpetrator, and the location of the homicide, followed by a brief description of the circumstances of the crime based on publicly available information. The narratives prioritize highlighting lethality risk factors for best practices on enhancing future survivor safety. Information in this report, particularly regarding criminal charges and bond conditions, represents what was known about the status of criminal cases at the time of publishing. We hope that a thoughtful examination of each case will shine much-needed light on the issue of domestic violence and create opportunities to promote intervention and prevention.

Texas Council on Family Violence respectfully lists the names of each of the 216 victims of intimate partner homicide in 2022 and joins their families, friends, and communities in mourning each individual.

TCFV CAREFULLY REVIEWS CASE DETAILS AND STRIVES TO REPRESENT EACH VICTIM BOTH ACCURATELY AND RESPECTFULLY AND MAY UPDATE INFORMATION UPON REQUEST WHEN NOTIFIED OF DOCUMENTED ERRORS. PLEASE CONTACT [INFO@TCFV.ORG](mailto:info@tcfv.org) IF YOU WOULD LIKE TO OFFER FEEDBACK ON A SPECIFIC CASE.
